DIRECTIONS

Measurements are based on prewashed fabric, accurate cutting, ¼" seam allowance and 42" wide fabric.

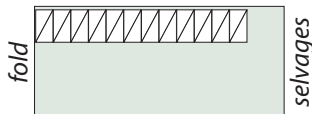

1. Cut each of the darker fabrics into 12 – 8½" x 5½" rectangles. Begin by folding each of the darker fabrics in half and cut through two layers.

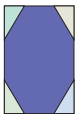

2. Using Template A, cut away and discard all four corners of each of the 8½" x 5½" rectangles.

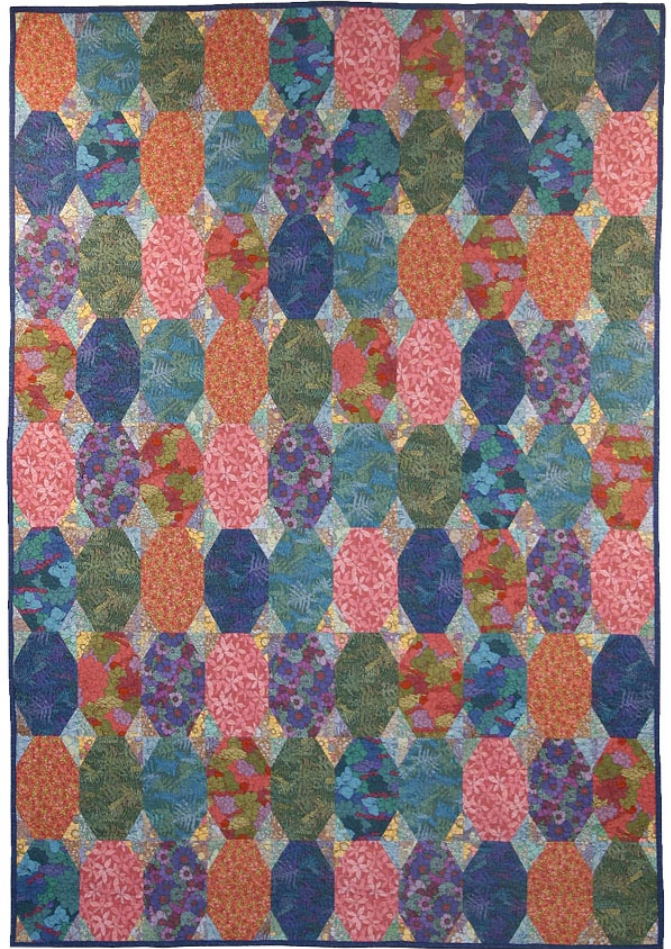

3. Cut 23 – 2¼" x 3¾" rectangles from each of the eight lighter fabrics. Begin by folding each of the lighter fabrics in half and cut through two layers. Cut the rectangles diagonally to make 46 triangles.

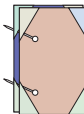

4. Randomly sew the light triangles onto the corners of all your blocks. Iron the seams open so that they lie flat and so it is easier to align the points later.

5. Layout the finished blocks into nine rows of ten blocks each. Aim for an even distribution of the fabrics throughout the quilt. You will have two extra blocks left over.

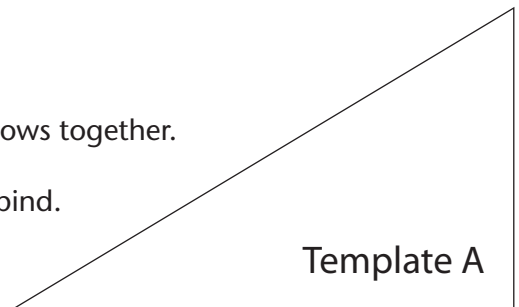

6. Piece together the blocks by rows, pinning carefully through the seams ¼" from the edge.

7. Piece the rows together.

8. Quilt and bind.
